

SANITARY LANDFILL

		Paragraph	Page
CHAPTER	1. GENERAL		
	Purpose	1-1	1-1
	Scope	1-1	1-1
	References	1-3	1-1
	History of Solid Waste Disposal	1-4	1-1
	Current Practice	1-5	1-1
	Laws and Regulations	1-6	1-1
	Solid Waste Characteristics	1-7	1-2
	Alternative Disposal Methods	1-8	1-2
	Solid Waste Stabilization in a Sanitary Landfill	1-9	1-3
CHAPTER	2. PLANNING		
	Feasibility Investigation	2-1	2-1
	Operational Data for Planning	2-2	2-1
	Site Selection	2-3	2-1
CHAPTER	3. DESIGN		
	General	3-1	3-1
	Health and Safety	3-2	3-1
	Volume Minimization	3-3	3-1
	Site Layout	3-4	3-1
	Trench Design	3-5	3-1
	Leachate Control	3-6	3-4
	Gas Control	3-7	3-11
	Runoff Control	3-8	3-13
	Support Facilities	3-9	3-14
	Closure	3-10	3-15
CHAPTER	4. CONSTRUCTION AND OPERATION		
	Construction Sequence	4-1	4-10
	Construction Practices	4-2	4-1
	Construction Quality Assurance	4-3	4-1
	Landfill Operations	4-4	4-2
	Equipment	4-5	4-3
	Climate	4-6	4-4
	Operating Records and Controls	4-7	4-4
	Monitoring	4-8	4-5
APPENDIX	A. REFERENCES		A-1

List of Figures

		Page
Figures	2-1. Typical Trench Landfill Operation	2-2
	2-2. Typical Area Landfill Operation	2-2
	3-1. Typical Landfill Site Layout	3-2
	3-2. Typical Trench Bottom Separated by Berms	3-3
	3-3. Alternate Trench Bottom Design	3-4
	3-4. Typical Berm Detail	3-4
	3-5. Typical Cover and Gas Venting System	3-5
	3-6. Typical Side Slope Construction Detail	3-6
	3-7. Leachate Collection System	3-8
	3-8. Typical Liner System	3-9
	3-9. Collection Systems with Manholes	3-10
	3-10. Collection System with Riser Pipes	3-10
	3-11. Collection Trench Detail	3-11
	3-12. Typical Administration/Control Building Floor Plan	3-14
	4-1. Construction Sequencing	4-2

APPROVED FOR PUBLIC RELEASE; DISTRIBUTION IS UNLIMITED

List of Tables

		Page
Tables	1-1. Typical Composition of Municipal Solid Wastes	1-3
	3-1. Leachate Characteristics and Common Constituents	3-7
	3-2. Typical Composition of Stabilized Municipal Landfill Gas	3-12
